To Whom it may concern

Penny McDonald has been teaching the Alexander Technique here at Brave Studios since 2015. It has been our pleasure to have Penny as a core member of our faculty. In her time with us Penny has worked with students across all of our courses. This includes working with both young people and adults including our 12 Month Teenagers program, the Beginner Actors through to our 12 Month Advanced Actors program.

Penny's passion and commitment to her craft is exemplary, she is always learning and increasing her knowledge in order to pass it on to her ever eager students. She has contributed so much to our business from her tireless work ethic to her complete professionalism. For this we are so very grateful.

We will sorely miss Penny and everything she brings to our school, quite honestly, I don't think we can replace her. Our loss will be someone else's gain however and I recommend her unequivocally.

Should you have any questions or would like to speak further I am more than happy to speak at any time.

Warm Regards,

Damien Fotiou - Brave Studios' Director
